

DESERT REGION

That sand gets everywhere....

I was recently contacted by Daerick Gross who has sent me his creations to put on the site. His cards are very nice and are displayed in the Gallery section.

This page is dedicated to his new Desert Region board. It's quite simple to use. The two smaller parts A1 and A2 are just placed on the main board over the existing Desert and Oasis spaces. The other sections are an overlay for the existing Middle Region. It should be easy enough to assemble, A to A, B to B etc...

Ordinary Adventure cards are drawn in the new Region.

In my opinion this expansion is just begging for it's own deck. Maybe it can be used in conjunction with Cameron's Desert expansion....

Enjoy! :-)
