

Dragon Land

Stewart Holden

1 Introduction

Hi all,

Just a quick note I have just finished the Dragon Land Expansion. This is the first time I have uploaded any of my work, so I hope it's ok.

This Expansion is more of a tribute expansion, to all the Great Dragon Cards, you people have made.....

I have made a lot of changes on the cards text, the reason behind this was to try and get them to fit into the expansion board, I hope this does not upset anybody who made the original card.....

Right a few things about the expansion. Do you remember first time you played Talisman and drew a Dragon Card, I can and nearly 20 years ago. You must try to stop the Dragon Invasion of the Realms by going to the Dragon Lands and beat them on their own ground.

2 Notes

1) You can only enter the expansion via an Adventure card.

2) I use a Treasure Deck and some cards refer to (Draw A Treasure Card), if you do not use a Treasure Deck then can either change the text of the card or make your own Treasure Deck, I started with the Treasure cards from the Vampire Keep Board and built the deck from that. I might download some new treasure cards at a later date.

3) Also just a word of warning the expansion has not been playtested yet! or checked for errors.

4) The Expansion set is still in its early stages so any ideas or new cards to add to the set will add to the set greatly.

5) At the time of sending this expansion to you I have not yet got artwork for the Draw a Dragon, I will not be using artwork for this Card because of the cost of ink. About the card, you will need to print the card 24 times for the Dragon Lands, 4 for the adventure board and any other board you want more Dragon in. Print out more or less of the Draw A Dragon card for more or less of a challenge.

6) The Dragon Land Board is affected only by Global Events.
