The Awakening

Version 2.0

Welcome

At first, let me thanks to **J.C. Hendee** from fantasyflight forum, he helped me with lots of corrections, gave me lots of inspirative ideas and provided me with really good feedback. Thanks !

Quests, battles, glory, and treasures! Welcome back to the magical realm of Talisman®.

Awakening expansion for Talisman: The Magical Quest Game features new treasures, events, monsters and quests.

Components

Below is a list of all the components

This Rulesheet

53 Adventure Cards

4 Spell Cards

2 Relic Cards

2 Treasure Cards

Below is a brief description of game components.

The Awakening Symbol

All of the cards in this expansion are marked with a whirl symbol, so that you can differentiate them from the cards from the base game.

Adventure and Spell Cards

The new Adventure and Spell Cards work exactly like those in the base game, and include additional Events, Enemies, Strangers, Objects, Followers, Spells and Places.

Treasures and Relics

If you do not have any other expansions, Treasures and Relics could be obtained only from completing particular Adventure Cards. If you have Dungeon or Highland expansion, shuffle it in corresponding deck.

Adventure Cards – Quest

These cards work like normal Adventure Cards, not like Quest Cards. Just place this card in your playing Area and check the rules for completing the Quest.

Adventure Quest Cards are automatically discarded if your character dies.

Any character may keep any number of Adventure Quest Cards.

Setup

When playing with **Awakening** Expansion, just shuffle the new Adventure and Spell cards into their respective decks. Using all these cards is optional, you could discard whatever card(s) you or your party do not like.
