

The Plague

R Herschel Smith

1 Worse Than Any Enemy

Did you think a Dragon was the worst thing you could face?

Medicine can be bought if a Character visits the Healer in the Village, Doctor in the City, or the Royal Physician at the Royal Castle for a price of 2 Gold for each one.

2 Starting the Game

1. Place all Adventure and Spell cards in their appropriate decks.
2. Place the Medicine and large Plague cards to the side. Unlucky players will be needing them soon.

3 Playing with the Plague

3.1 Getting The Plague

Getting the Plague unfortunately is rather easy depending on what you encounter. When a Character encounters an Enemy-Animal roll a die. If the result is 1 then it has the Plague, 1 or 2 if it is a Rat. If it wins in Combat it gives the Plague to the Character it faced.

When a Character catches the Plague its player takes a Plague card and deals with it. The only advantage to having a Plague card is that a Character ignores anything that tells it to get another Plague card.

3.2 Curing The Plague

A Character can rid itself of the Plague by using healing to remove counters from the Plague card. It can also cast the Reverse Health Spell and use Medicine.
