

# MYSTIC BREW RULES

Rock & Roll and Brew ?

*Jon New*

## 1 Introduction

The Management of The Tavern is pleased to announce a new range of fine Ales from around the Globe. Available at a cost of just 2 Gold per Flagon.

The Mystic Brew artwork is taken from Pumpclips or Bottle Labels I have scanned from a great collection of Real Ales and donated images. Any copyright problems, as usual, let me know.

## 2 RULES

- You must be at least 18 years of age to indulge in the.....um....hang on a minute.
- Instead of encountering the Tavern as normal, you may choose to purchase a Flagon of Mystic Brew for the princely sum of 2 Gold. (YES - that's right TWO - Our prices just keep on falling!!)
- You must drink the Brew straight after purchase, the effects of which are instantaneous.
- Mystic Brews are akin to Spells, Events or Followers. Any ambiguity with the text governing any Brew should be sorted out using the time-honoured system of "common sense".
- The Mystic Brew cards are kept face down in a pile next to the Tavern and when a purchase has been made, the buyer takes the top card.
- If you are using them in conjunction with Rob Wingrove's excellent expansion - Black's Tavern, place them on the space provided on his board.
- When the Stock Pile has been exhausted, shuffle the cards and start again .

I hope you like these cards, there will be more to come, just have fun with them.
